Dear Sir / Madam

### **OUTBREAK OF AVIAN INFLUENZA (AI) IN NETHERLANDS**

Please refer to our letter dated 15 Dec 2016.

The Netherlands has reported outbreaks of H5 Highly Pathogenic Avian Influenza (HPAI) in a fattening duck farm in Kamperveen, Overijssel; at a layer farm in Hiaure, Friesland and at a broiler breeder holding in Boven Leeuwen, Gelderland.

In view of the outbreaks, AVA will impose a temporary restriction on the importation of poultry and poultry products to the 10 km radius restricted area around the affected premises in Kamperveen, Overijssel; Hiaure, Friesland and Boven Leeuwen, Gelderland in the Netherlands, with immediate effect. Heat-processed poultry products, which meet the requirements for heat inactivation of AI virus, will not be affected. For import from unaffected areas in the Netherlands, additional certification is required on the veterinary health certificate as listed on Annex 1.

Please contact Mr Lai Fah Choong or Ms Zawiyah at 6805 2857 / 6805 2863 should you have any enquiries on the import of poultry and poultry products.

Yours faithfully
